## THE PERFECT LInC TO YOUR DRUG, FILL-FINISH, AND END-USER

### DRUG

#### Ensuring compatibility between drug and closure

A fundamental link in ensuring maximum drug closure compatibility thanks to carefully selected rubber stopper material.

### FILL-FINISH

#### Maintaining container closure integrity

Nipro's new integrated luer lock closure system links precisely to D2F glass syringes, thereby maintaining container closure integrity.

#### Fast time to market

An essential link in accessing the market by virtue of D2F-LInC's optimal processability. D2F-LInC is compatible with existing D2F tub & nest packaging solutions.

### END-USER

#### Offering an easy opening

A crucial link in the preparation and administration process thanks to an intuitive and easy opening.

#### Enabling precise connections to accessories

The luer lock adapter ensures a precise link to standard accessories, giving the end-user maximum flexibility during preparation and administration.
